1. NOTE: All days mentioned in Rules and Regulations specifically refer to days falling between the dates of July 10-20, 2019.

2. All Exhibitors are requested to ask the Secretary of Official Entry Blanks. By their use, the work of the Secretary will be greatly facilitated and at the same time proper entry on all articles will be insured. IT IS IMPORTANT THAT ENTRIES BE MADE BY NUMBER — CLASS — DIVISION AND DESCRIPTION. SPECIAL BLANKS ARE PROVIDED FOR ENTERING LIVESTOCK EXHIBITS.

3. All articles entered for competition in the Fair must be on the grounds no later than 6:00 PM, Wednesday, July 10, 2019 unless special permission is given by the Division Superintendent. No article accepted prior to July 9, 2019.

4. Articles or animals intended for exhibition only, and not for competition, may be entered at any time.

5. No feed will be furnished and only first bedding (sawdust) will be furnished.

6. All articles or animals must be entered in the Secretary's books and all persons desiring to compete for premiums are requested to furnish a written list of such articles or animals to the Secretary by letter or otherwise, as early as possible, and classified according to premium list numbers on the official entry blank furnished by the Association. **USE ONE SIDE ONLY.** All articles must have an attached entry tag.

7. Exhibitors entering cattle, sheep, and swine must give the registration number on the entry list. Stable room will be reserved in the order in which entries are received.

8. All entries must be made by the owner in the name of the owner or joint owners, and no premiums will be awarded to any persons not the owners of the article. Animals (with the exception of rabbits) must be entered in the name of the owner and premiums will be paid to the same person as named on the entry.

9. No article or animal can compete in more than one class or division except in trial of speed, cattle and swine, unless otherwise noted.

10. If there is but one exhibition of any article or animal, only one premium will be awarded; the first or lower premium as the Judges think deserving.

11. The Intake Coordinator has the right to reject any entry at the check-in point either for evidence of contagious or infectious disease, evidence of ill health and/or failure to meet health requirements of the PDA or the Fair. Anyone arguing with the Intake Coordinator about his/her decision will be excused from competing with any animal at the Fair. If the Executive Committee and/or Fair Board feel necessary, a private veterinarian can be called in to render the final opinion. The animal should not be off loaded until that veterinarian has made the call and the veterinarian should issue a CVI for that date. This would be a private veterinarian the owner pays to have come out.

12. An exhibitor who inhibits an animal in question may be veterinarian tested at the questionnaire's expense. If found to test positive, the expenses will be paid by the exhibitor, premiums and awards revoked and banned from showing as long as the Fair board deems so. The Fair Association will appoint the veterinarian.

abide by it, but great care must be taken to enter each one in its proper class, as no alterations can be made after entries close.

14. Goods and stock must be delivered on the grounds and put in place by exhibitors, a competent person being in charge. Grain to be furnished by the exhibitor. All livestock entries are due June 17, 2019. **Stock may not be removed by exhibitors earlier than 9:00 PM on the second (last) Saturday of the Fair**, unless special arrangements for removal have been made prior to entering. Where articles of merit, superior in their character are presented, not named on the list. Judges are requested to note them particularly in their report and make such recommendations to the Board of Directors as they deem proper.

24. Judges will begin their examination at 9:00 AM; they will first report to the Secretary who will give them books for the respective departments and explain the method of entering the awards.

25. Any persons who are dissatisfied with the awards of the Judges shall have the right to appeal in writing to the Board of Directors, whose decision shall be final.

26. Checks will be mailed to the successful contestants as soon as the awards have been approved by the Board of Directors. No advance on premium awards will be paid any exhibitor until the awards have been approved.

34. If the proceeds of the Fair, after the deduction of all expenses and fixed charges, are not sufficient to pay the premiums in full the Fair Association reserves the right to pay said premiums pro-rata.

35. The Fair Association reserves the right to construe its own rules and regulations and to decide arbitrarily all matters thereto; and to formulate and enforce special rules for any condition not otherwise covered in these rules and regulation. Rules governing specific classes of exhibits, must and will be, rigidly adhered to. No

exception whatsoever will be made.

36. All entries must be made in the name of the owner of the animal.

37. All market animals must be owned by the exhibitor, market animals can not be leased.

38. Mistreatment or cruelty of animals by any person will result in forfeit of premiums and future entries will not be accepted. No entry fee refunded.

39. If proper conduct is not displayed by exhibitors, they will be asked to leave and will be disqualified from further showing.

40. All exhibitors must obey all parking regulations and park in designated areas or premium will be forfeited.

41. Unapproved products may contain ingredients that result in unacceptable residues in the meat or milk. If you are not certain that a product is residue safe and approved for use on meat or dairy animals, do not use it! ****IMPORTANT!** If upon slaughter treatment with drugs, biologics, or any chemical from fitting products is the cause of condemnation of a carcass, the loss of the carcass and any other damages will be borne by the exhibitor.**

43. No Exhibitor or his/her agent may associate with any judge prior to judging of articles or animals that said exhibitors may have entered.

2019 PENNSYLVANIA DEPARTMENT OF AGRICULTURE ANIMAL HEALTH REQUIREMENTS AND RECOMMENDATIONS FOR ANIMALS FOR EXHIBITION, INCLUDING COMMERCIAL EXHIBITION

This document provides the Pennsylvania Department of Agriculture's (PDA) animal health requirements and recommendations for the Pennsylvania County and Community Fairs. All exhibitors are encouraged to check with the management of each fair in advance to ensure compliance with all fair requirements.

Fair management is requested to maintain records and asked to provide contact information of owners of all animals which are exhibited to PDA upon request.

It remains our goal to continue poultry exhibitions in 2019. We will continue to monitor reports of avian influenza cases that may occur in the United States that could put our poultry industry at risk.

The following Animal Owner or Caretaker's Verification of Veterinary Consultation Relationship statement for the animals and poultry being exhibited must be included with a signature line for the owner or caretaker on the fair registration form: "I attest and affirm that a "veterinarian consultation relationship" - as that phrase is defined in the Animal Exhibition Sanitation Law found at 3 Pa. C.S.A. § 2501 et seq. and any amendments thereto - "exists with regard to any animals I will be exhibiting." Animals entering with a Certificate of Veterinary Inspection (CVI) are exempt from this statement requirement.

For specified events at the Pennsylvania Farm Show Complex, including the Pennsylvania Farm Show, the Pennsylvania All-American Dairy Show, the Pennsylvania State Junior Dairy Show, the Keystone International Livestock Exposition, the Pennsylvania Fall Holstein Show and the Pennsylvania State 4-H Horse Show, exhibitors will need to consult the 2019 show managements' requirements.

PDA recommends that animals returning home from fairs and shows be isolated from other members of the herd or flock for a minimum of three weeks to help prevent the spread of disease, and recommends that exhibitors of all animals discuss the health of their animals, including vaccine recommendations, with a veterinarian on a regular basis. PDA also encourages animal and poultry owners to register their premises so they can be contacted in a disease emergency situation. Call 717-836-3235 to register a premises.

Section 3: Pennsylvania Cattle:

Requirements:

1. Cattle shall be identified by an official ear tag or other unique identification device approved by PDA. Official identification includes:

2. All animals must be free of evidence of infectious and contagious diseases and a statement of this should be written on the CVI.
3. A current rabies vaccination administered by a licensed veterinarian for animals 3 months of age and older (observe appropriate slaughter withdraw time).
4. Rodeo: It is recommended that rodeo cattle of all ages be negative on an official tuberculin test within 60 days prior to the start of the fair unless they are members of and originate from an accredited tuberculosis-free herd. The cattle can be accompanied by the negative test report or the tuberculosis test results can be recorded by the veterinarian on a CVI.

Section 9: Pennsylvania Equine Animals:

each animal to its final destination (a copy of the original lab report is acceptable). The CVI shall specify the date of sample collection and EIA test results. Foals less than six months of age accompanied by a test-negative dam are exempt from EIA testing requirements. If the foal is not accompanied by the dam, a copy of the dam's test results must accompany the foal to its final destination.

1. Individual official animal identification is required for all goats. Official ID includes:

The birds or hatching eggs must be accompanied by the most recent test report (copy acceptable). Test results must be negative. If there are fewer than 30 birds in the flock, test all birds. For waterfowl, cloacal swab samples must be collected for testing, and the swabs may be tested using PCR techniques. Swabs from geese and ducks may not be combined in the same tube for testing. Untested birds shall not be comingled with or added to the tested flock after negative samples have been collected and before the show.

GUIDELINES FOR CARE OF ANIMALS

1. It is the responsibility of each exhibitor to care for animals in a manner that is responsible and ethical. Following are some guidelines for the treatment of animals exhibited at the show.
 - a. **Restraining Animals**
 - i. Animals should be tied or penned in a manner that will not hurt the animal or restrict its breathing in any way.
 - ii. Animals should be tied so that all four feet are firmly on the ground and they have enough room to stand comfortable and lie down.
 - iii. Animals should be tied so that they are not able to injure animals tied near them.
 - iv. Animals unaccustomed to each other should not be penned together.
 - b. **Handling** - Any type of rough handling which could harm the animal is prohibited. The use of whips, canes, and show sticks should be restricted to showing only and then be used only to guide the animals, not punish them. Remember, animals will respond quicker and better to quiet, gentle handling, than loud, rough handling.
 - c. **Bedding** - All animals should have bedding that is dry and clean. Pens should be cleaned regularly to keep the animals clean and comfortable. If non-traditional bedding such as carpeting is used, it should be regularly cleaned (at least twice daily) to keep the pen free from manure.
 - d. **Feeding & Water** - Animals should be well fed and have access to clean water regularly. Realizing that many market animals must have restricted amounts of feed to maintain the proper weight, animals must be fed adequate amounts of feed to meet the animal's basic requirements. Animals not allowed reasonable access to feed and water will be disqualified from the show.
 - e. **Transportation** - Animals should be transported in a way that is both safe and considerate of the animal's well-being.
 - f. **Blanket/Sweat Collars** - Any type of material such as blankets or sweat collars should be large enough to permit normal body functions such as breathing, eating, drinking or lying down.
 - g. **Health** - It is the responsibility of the exhibitor to provide proper health care for their animals through routine inspection and consultation with health care professionals. The improper or illegal use of drugs or antibiotics is prohibited. If medication is indicated, be sure to follow the label directions and allow more than the state withdrawal time.

ADVICE TO EXHIBITORS

IMPORTANT TO ALL EXHIBITORS - EVERYONE MUST READ! IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the

United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors are required to provide social security number of each entry form.
2. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.

If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. 7. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
8. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
9. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
10. This application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
11. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notice to members.
12. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

P.D.C.A. SHOWING CODE OF ETHICS (COURTESY OF P.D.C.A.)

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the Purebred Dairy Cattle Association to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the P.D.C.A. believes that it is the best interests of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognized that there are certain practices in the proper care and management of dairy cattle, which are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown. In female classes animals may not be exhibited that are in milk due to an unnaturally induced lactation.
2. Balancing the udder by any means other than by leaving naturally produced milk in any or all quarters.
3. Setting the teats with a mechanical contrivance.
4. Treating or massaging any part of the animal's body, particularly the udder, internally or externally with an irritant, counter-irritant, or other substance to temporarily improve conformation or produce unnatural animation.
5. Minimizing the effect of crampiness by feeding or injecting drugs, depressants or applying packs or using any artificial contrivance or therapeutic treatment excepting normal exercise.
6. Blocking the nerves to the foot to prevent limping by injecting drugs.
7. Striking the animal to cause swelling in a depressed area.
8. Surgery of any kind performed to change the natural contour or appearance of the animals body, hide or hair. Not included is the removal of warts, teats, and horns, clipping and dressing of hair, and trimming of hooves.
9. Insertion of foreign material under the skin.
10. Changing the color of hair at any point, spot or area on the animal's body.
11. The use of alcoholic beverages in the feed or administered as a drench.
12. Administration of a drug of any kind or description either internally or externally prior to enter the show ring, except for treating a recognized disease or injury and for tranquilizing females in heat. For the purpose of this Code, the term "drug" shall mean any substance, the sale, possession or use of which is controlled by license under federal, state or local laws or regulations; and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory or central nervous system of a cow.
13. Criticizing or interfering with the judge, show management, or other exhibitors while in the show ring or other conduct detrimental to the breed or show.

In keeping with the basic philosophy of the Purebred Dairy Cattle Association, ethics are an individual responsibility of the owner of each animal shown. Violations of this Code are subject to the disciplinary provisions of the appropriate dairy breed association and/or show management.

NATIONAL CODE OF SHOW RING ETHICS

Developed by International Association of Fairs and Expositions (IAFE)

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial & national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

12. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
13. Owners, exhibitors, fitters, trainers or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
14. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
15. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine,

saliva, blood, or other substance tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed vet.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the "IAFE National Code of Show Ring Ethics" and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

DEPARTMENT 109 - RABBITS - SECTION 1 - 4-H & VOC MEAT PEN & FRYERS

SHOW: THURSDAY, JULY 18, 2019 • 3:00 PM • Entries close June 17, 2019

1. A meat pen consists of three (3) rabbits of the same breed and variety (*same color and all broken or all solid*) as **recognized and accepted** in the current edition of the ARBA Standards of Perfection. They should be uniform in weight, show the best meat characteristics and have no disqualifications as listed in the ARBA Standards of Perfection. They may be up to ten (10) weeks old (70 day maximum) and must weigh a minimum of three and a half (3.5) lbs. and maximum of five and a half (5.5) lbs. individually. Any meat pen containing rabbits under 3.5 lbs./over 5.5 lbs., or has lost one of the rabbits will not be eligible for the show and livestock sale. A fryer is a single rabbit, up to 10 weeks old and weigh between 3-1/2 to 5-1/2 lbs. They will be chosen from the 10 rabbits that are tattooed. Single fryers must be entered in addition to meat pens.
2. Each animal must be identified with a permanent and legible tattoo. Rabbits being grown for competition must be tattooed at approximately five (5) weeks of age by the rabbit species chairperson at a common location—tentative date & location is June 15, 2019 at the Lycoming County fairgrounds, time to be determined. Tattoo numbers will be listed on the compliance form and will be signed by the rabbit species chairperson after the rabbits have been tattooed. This compliance form must be brought with the rabbits to the fair and be presented at check-in.
3. In preparation for the show, each exhibitor may have up to 10 rabbits tattooed and will be allowed to show and sell two (2) meat pens and two (2) fryers. Exhibitors may not “share” their 10 meat pen rabbits with another exhibitor.
4. Youth exhibitors must own the doe(s) and kits must be kindled in the owner’s rabbitry no more than ten (10) weeks before show date — May 9, 2019 or later.
5. Owner/Exhibitor must notify their county agent or 4-H club leader of their intent to enter a meat pen and fryers before the doe is bred (“designation”).
6. Owner/Exhibitor must notify the county agent or 4-H club leader within three (3) days of the doe’s kindling.
7. Rabbit meat pens will be received Thursday morning July 18, 2019 by 10:00 AM. If so desired, youth may still check their youth meat pens in on Friday evening with open rabbit check in, but they assume the risk of illness/death. Weigh-in will occur Thursday afternoon prior to judging (not necessarily at check-in) and exhibitors whose pens do not meet weight requirements (see item #1) have the option of taking them home. These weights will be the official weights for the youth show on Thursday afternoon. The exhibitor has the option of entering their meat pens in the open meat pen classes (judged Saturday), and the open judge may weigh them – but those weights WILL NOT be taken into consideration for the youth show. For those exhibitors who choose to coop their meat pens for the entire week, they will be responsible for feeding and cleaning their meat pens – for those that only enter youth meat pens in the fair, they will receive a pass to enable them to care for their meat pens. Exhibitors only showing men pen rabbits/no other species, will receive a fair pass at the discretion of the fair.
8. A Vet-Client Relationship (VCR) form must accompany rabbits. All paperwork (VCR, buyer intent, market animal designation, parental consent & compliance form) is to be turned in to chairperson at check-in Thursday morning, July 18, 2019.
9. Exhibitors must be present on show day to show their meat pens and fryers for judging or the pen(s) will be disqualified. In the case where the exhibitor is physically unable to attend the show due to ill health or family tragedy, another youth must show the meat pen and fryers.
10. All meat pens and fryers will be sold unless the owner/exhibitor notifies the species chairperson otherwise and turns in the “Intent Not to Sell” slip by the end of the show. A \$5.00 fee (per pen) will be charged if an exhibitor decides NOT to sell an eligible meat pen. Exhibitors must present a Letter of Intent from a different buyer for each meat pen and fryers to be sold.
11. For youth entering meat pens and fryers, exhibitors will use the general livestock entry form.

12. Meat pens will be divided into a lightweight and heavyweight division after weigh-in. First and second place of each division will compete for Grand & Reserve Grand Champion.

HOME CANNING PRINCIPLES

In the air and all around us are invisible microorganisms such as mold, yeasts, and bacteria. Many are beneficial while others can be harmful under certain conditions. These "spoilors" live and multiply on the surface of fruits, vegetables, meats and all other types of food. They are the major causes of food spoilage and loss of quality.

Canning interrupts the normal spoilage and decay cycle of food by heating the food contained in a home canning jar that has been closed with a two-piece vacuum sealing cap. When heat is applied according to recommended times and pressure, microorganisms are destroyed and air is driven from a jar. Upon cooling, the lid seals onto the jar.

Currently, we recommended canning by two proven methods: boiling water canning and steam pressure canning. Home canners will make their choice of which of these methods to choose based on the pH of the food being canned. It is important that processing methods (including time to process) be current and be based on research. Some processing methods that have been handed down through the generations in families probably do not reflect current thought and need to be reexamined in light of recent studies.

SECTION 2 - CANNED OR DRIED PRODUCTS

1. Use only standard mason-type clear pint or quart glass jars for preserving and exhibiting fruits, vegetables and meats.
2. Green or other colored jars are unacceptable.
3. Metal screw bands may be loosely applied while transporting jars to and from the fair. However, screw bands must be removed from jars before exhibiting entries.
4. All food not in standard jars or not sealed with self-sealing lids will be disqualified by the judge.
5. Entries must have been processed since the last fair.
6. To maintain a quality fair, participants will be asked to identify the method of preservation used as well as the number of minutes and pounds of pressure for pressure canning. This information is to be provided at time of entry.
7. Judges are privileged to open and sample canned goods and jellies if such treatment appears necessary in making a decision.

Canned fruits and vegetables to be judged on quality, general appearance and container. ALL CANNED FOOD PRODUCTS MUST BE EXHIBITED IN STANDARD CANNING JARS, AND SEALED WITH VACUUM OR SELF-SEALING LIDS, WITH THE SCREW OR RING BANDS REMOVED.
