RULES AND REGULATIONS

1. NOTE: All days mentioned in Rules and Regulations specifically refer to days falling between the dates of July 13-23, 2022.
2. All Exhibitors are requested to ask the Secretary of Official Entry Blanks. By their use, the work of the Secretary will be greatly facilitated and at the same time proper entry on all articles will be insured. IT IS IMPORTANT THAT ENTRIES BE MADE BY NUMBER — CLASS — DIVISION AND DESCRIPTION. SPECIAL BLANKS ARE PROVIDED FOR ENTERING LIVESTOCK EXHIBITS.
3. All articles entered for competition in the Fair must be on the grounds no later than 6PM, Wednesday, July 13, 2022 unless special permission is given by the Division Superintendent. No article accepted prior to July 12, 2022.
4. Articles or animals intended for exhibition only, and not for competition, may be entered at any time.
5. No feed will be furnished and only first bedding (sawdust) will be furnished.
6. All articles or animals must be entered in the Secretary's books and all persons desiring to compete for premiums are requested to furnish a written list of such articles or animals to the Secretary by letter or otherwise, as early as possible, and classified according to premium list numbers on the official entry blank furnished by the Association. **USE ONE SIDE ONLY.** All articles must have an attached entry tag.
7. Exhibitors entering cattle, sheep, and swine must give the registration number on the entry list. Stable room will be reserved in the order in which entries are received.
8. All entries must be made by the owner in the name of the owner or joint owners, and no premiums will be awarded to any persons not the owners of the article. Animals (with the exception of rabbits) must be entered in the name of the owner and premiums will be paid to the same person as named on the entry.
9. No article or animal can compete in more than one class or division except in trial of speed, cattle and swine, unless otherwise noted.
10. If there is but one exhibition of any article or animal, only one premium will be awarded; the first or lower premium as the Judges think deserving.
11. The Intake Coordinator has the right to reject any entry at the check-in point either for evidence of contagious or infectious disease, evidence of ill health and/or failure to meet health requirements of the PDA or the Fair. Anyone arguing with the Intake Coordinator about his/her decision will be excused from competing with any animal at the Fair. If the Executive Committee and/or Fair Board feel necessary, a private veterinarian can be called in to render the final opinion. The animal should not be off loaded until that veterinarian has made the call and the veterinarian should issue a CVI for that date. This would be a private veterinarian the owner pays to have come out.
12. An exhibitor who inhibits an animal in question may be veterinarian tested at the questionnaire's expense. If found to test positive, the expenses will be paid by the exhibitor, premiums and awards revoked and banned from showing as long as the Fair board deems so. The Fair

Association will appoint the veterinarian.

13. Every exhibitor of livestock must have his own choice as to class in which he will enter the animal and abide by it, but great care must be taken to enter each one in its proper class, as no alterations can be made after entries close.
14. Goods and stock must be delivered on the grounds and put in place by exhibitors, a competent person being in charge. Grain to be furnished by the exhibitor. All livestock entries are due June 20, 2022. **Stock may not be removed by exhibitors earlier than 9PM on the second (last) Saturday of the Fair,** unless special arrangements for removal have been made prior to entering. Late entry will be accepted if stabling is available, subject to payment of double entry fee. Deadline for double entry fee is July 23, 2022. No vehicles on grounds in livestock area until 9PM on July 23, 2022.
15. All exhibitors of livestock must be 8 years of age and must be ready to bring them out when called by the Judge or forfeit right to premium awarded.
16. No person will be allowed in the Judge's enclosure while the Judges are making the awards except for person showing the animal.
17. Exhibitors will obey the marshal promptly in producing the stock when requested to do so. Horses to be in charge of their drivers only.
18. All stock to be what it is represented or no premiums will be awarded.
19. All grain, fruit, vegetables and flowers must be the growth of exhibitors and in case of stock, exhibitors must own, or lease the animals at the time of exhibition.
20. No article, unless otherwise provided for, may be removed before **SUNDAY, JULY 24 - 10AM-1PM or MONDAY, JULY 25 - 10AM-1PM** in order to participate in the payment of premiums or awards. **IMPORTANT: GENERAL ENTRIES FOR OPEN CLASS MUST BE RECEIVED BY JULY 5, 2022. Articles for exhibit will not be accepted prior to Tuesday, July 12, 2022 - 10AM-6PM.**
21. All articles exhibited, whether edible or not, must be respected as private property, and persons detected in purloining or injuring them will be prosecuted. The Fair Association will provide watchmen and police, but will in no case be responsible for accident, loss or damage by fire, theft, or otherwise, that may occur.
22. No person shall act as Judge in any class in which he or she or any member of his or her family is a competitor, and when a premium is awarded to a person or his/her agent who has attempted to influence the Judges, the premium shall be withheld.
23. Judges are urged to examine the premium list with particular care, and in no case to award the premium where there is no merit, or for articles or animals of ordinary or inferior qualities and only those provided for by the premium list. Where articles of merit, superior in their character are presented, not named on the list. Judges are requested to note them particularly in their report and make such recommendations to the Board of Directors as they deem proper.
24. Judges will begin their examination at 9AM; they will first report to the Secretary who will give them books for the respective departments and explain the method of entering the awards.
25. Any persons who are dissatisfied with the awards of the Judges shall have the right to appeal in writing to the Board of Directors, whose decision shall be final.
26. Checks will be mailed to the successful contestants as soon as the awards have been approved by the Board of Directors. No advance on premium awards will be paid any exhibitor until the awards have been approved.
27. Entries may be made by addressing the Secretary, Karen A. Yaw, P.O. Box 116, Hughesville, PA 17737 who will furnish copies of the premium list, blank form of entries and all information needed.
28. Only items and numbers listed in catalog will be accepted and judged.
29. Exhibitors upon the payment of \$2.00, except where otherwise

provided, will entitle them to enter in any class. Entry fees are non-refundable.

31. Any privilege granted by the Association for the sale of refreshments or articles, or for any other purpose, will be revoked if the privilege is abused or the conditions violated, and no refunds will be made.
32. No violation of the liquor law will be tolerated. No intoxicated persons will be allowed on the grounds and gatekeepers shall not allow such persons to pass.
33. No gambling will be allowed on the grounds.
34. If the proceeds of the Fair, after the deduction of all expenses and fixed charges, are not sufficient to pay the premiums in full the Fair Association reserves the right to pay said premiums pro-rata.
35. The Fair Association reserves the right to construe its own rules and regulations and to decide arbitrarily all matters thereto; and to formulate and enforce special rules for any condition not otherwise covered in these rules and regulation. Rules governing specific classes of exhibits, must and will be, rigidly adhered to. No exception whatsoever will be made.
36. All entries must be made in the name of the owner of the animal.
37. All market animals must be owned by the exhibitor, market animals can not be leased.
38. Mistreatment or cruelty of animals by any person will result in forfeit of premiums and future entries will not be accepted. No entry fee refunded.
39. If proper conduct is not displayed by exhibitors, they will be asked to leave and will be disqualified from further showing.
40. All exhibitors must obey all parking regulations and park in designated areas or premium will be forfeited.
41. If there is any question of the completion and/or documentation of health requirements for an animal that is already off-loaded and in the Fair and/or any question if an animal already in the Fair has a contagious or infectious disease, either the PDA veterinarian, a PDA Animal Health Inspector and/or Accredited Veterinarian will make a decision as to whether or not the animal in question may remain at the Fair.
42. Be sure to use only grooming products that are approved for use on meat and dairy animals when fitting your animals for show. Unapproved products may contain ingredients that result in unacceptable residues in the meat or milk. If you are not certain that a product is residue safe and approved for use on meat or dairy animals, **do not use it! **IMPORTANT!** If upon slaughter treatment with drugs, biologics, or any chemical from fitting products is the cause of condemnation of a carcass, the loss of the carcass and any other damages will be borne by the exhibitor.**
43. No Exhibitor or his/her agent may associate with any judge prior to judging of articles or animals that said exhibitors may have entered.

2022 PA DEPARTMENT OF AGRICULTURE ANIMAL HEALTH REQUIREMENTS & RECOMMENDATIONS

FOR ANIMALS FOR EXHIBITION, INCLUDING COMMERCIAL EXHIBITION

This document provides the Pennsylvania Department of Agriculture's (PDA) animal health requirements and recommendations for the Pennsylvania County and Community Fairs. All exhibitors are encouraged to check with the management of each fair in advance to ensure compliance with all fair requirements.

Fair management is requested to maintain records and asked to provide contact information of owners of all animals which are exhibited to PDA upon request.

It remains our goal to continue poultry exhibitions in 2022. We will continue to monitor reports of avian influenza cases that may occur in the United States that could put our poultry industry at risk.

The following Animal Owner or Caretaker's Verification of Veterinary Consultation Relationship statement for the animals and poultry being exhibited must be included with a signature line for the owner or caretaker on the fair registration form: "I attest and affirm that a "veterinarian consultation relationship" - as that phrase is defined in the Animal Exhibition Sanitation Law found at 3 Pa. C.S.A. § 2501 et seq. and any amendments thereto - "exists with regard to any animals I will be exhibiting." Animals entering with a Certificate of Veterinary Inspection (CVI) are exempt from this statement requirement.

PDA recommends that animals returning home from fairs and shows be isolated from other members of the herd or flock for a minimum of three weeks to help prevent the spread of disease, and recommends that exhibitors of all animals discuss the health of their animals,

including vaccine recommendations, with a veterinarian on a regular basis. PDA also encourages animal and poultry owners to register their premises so they can be contacted in a disease emergency situation. Call 717-836-3235 to register a premises.

Section 3: Pennsylvania Cattle:

Requirements:

1. Cattle shall be identified by an official ear tag or other unique identification device approved by PDA. Official identification includes:
 - A USDA-issued National Uniform Eartagging System (NUES) ear tag having a US shield; or
 - A 15-digit Animal Identification Number (AIN) ear tag starting with "840" and having a US shield; or
 - Other identification approved by the PDA (brands and breed registrations with tattoos are not acceptable).
2. Certificate of Veterinary Inspection (CVI) issued within 30 days prior to Fair.
3. All animals must be free of evidence of infectious and contagious diseases and a statement of this should be written on the CVI.
4. A current rabies vaccination administered by a licensed veterinarian for animals 3 months of age and older (observe appropriate slaughter withdraw time).
5. Rodeo: It is recommended that rodeo cattle of all ages be negative on an official tuberculin test within 60 days prior to the start of the fair unless they are members of and originate from an accredited tuberculosis-free herd. The cattle can be accompanied by the negative test report or the tuberculosis test results can be recorded by the veterinarian on a CVI.

Section 9: Pennsylvania Equine Animals:

Requirements:

1. The Department of Agriculture has no specific requirements for Pennsylvania equines at fairs. However, fair management has the authority to impose requirements designed to prevent the spread of contagious diseases.
2. A Certificate of Veterinary Inspection (CVI) issued after May 1 of the current year.
3. All animals must be free of infectious and contagious diseases and a statement of this should be written on the CVI.
4. All equine animals must be test negative for Equine Infectious Anemia (EIA) by an official test within the 12 months prior to the opening date of the exhibition. Laboratory test results must accompany each animal to its final destination (a copy of the original lab report is acceptable). The CVI shall specify the date of sample collection and EIA test results. Foals less than six months of age accompanied by a test-negative dam are exempt from EIA testing requirements. If the foal is not accompanied by the dam, a copy of the dam's test results must accompany the foal to its final destination.
5. A current rabies vaccination administered by a licensed veterinarian is required for animals 3 months of age or older.

Section 11: Pennsylvania Goats:

Requirements:

1. Individual official animal identification is required for all goats. Official ID includes:
 - A USDA ear tag with a US shield; or
 - A legible tattoo with herd and individual identification recognized in an approved USDA Scrapie database a.k.a. scrapie tattoo (flock ID in the right ear--state postal code and letters/numbers--and individual animal ID in the left ear); or
 - A breed registration tattoo if the animal is accompanied by a registration certificate and the tattoo is legible.
2. A Certificate of Veterinary Inspection (CVI) issued within 30 days prior to Fair.
3. All animals must be free of infectious and contagious diseases and

a statement of this should be written on the CVI.

Section 13: Pennsylvania Poultry, including Chickens, Turkeys, Waterfowl, Upland Game Birds, and Ratites; and Pigeons/doves; and Hatching Eggs:

Requirements:

1. All Pennsylvania poultry, including chickens, turkeys, waterfowl, and upland game birds entering an exhibition must bear an official PDA-issued crimp style or butt end style leg band. Ratites must be identified with a neck band or an electronic implant device (the exhibitor must supply a reader). Pigeons and doves must bear a unique individual identification leg band but do not have to be identified with an official PDA leg band.
 2. An Owner-endorsed Poultry Health Certificate or a Certificate of Veterinary Inspection (health chart or CVI) must accompany all Pennsylvania poultry, including chickens, turkeys, waterfowl, upland game birds, and ratites; and pigeons/doves; and hatching eggs. The certificate must include the following:
 - Name and location of exhibition; and
 - Name, address, and telephone number of the owner; and
 - A statement that the entries and the flock of origin are free of evidence of infectious and contagious diseases; and
 - Description of the birds/hatching eggs; and
 - Owner signature and date of that signature.
 3. **Avian Influenza Testing and Verification:** All samples must be collected by a Certified Poultry Technician or a Category II Accredited Veterinarian.
 - All poultry, including chickens, turkeys, waterfowl, upland game birds, and ratites, (pigeons/doves excluded), and their hatching eggs for exhibition must originate from a flock in which a random, representative sample of a minimum of 30 birds, 3 weeks of age or older, were tested for avian influenza within the 30 days prior to opening date of the exhibition. The birds or hatching eggs must be accompanied by the most recent test report (copy acceptable). Test results must be negative. If there are fewer than 30 birds in the flock, test all birds. For waterfowl, cloacal swab samples must be collected for testing, and the swabs may be tested using PCR techniques. Swabs from geese and ducks may not be combined in the same tube for testing. Untested birds shall not be comingled with or added to the tested flock after negative samples have been collected and before the show.
 4. **Pullorum-typhoid Clean Testing and Verification** (pigeons/doves and waterfowl excluded for exhibition). (All samples must be collected by a Certified Poultry Technician or a Category II Accredited Veterinarian):
 - Poultry, including chickens, turkeys, upland game birds and ratites (waterfowl excluded) and their hatching eggs must originate from a flock in good standing on the NPIP Pullorum-typhoid Clean Program (and there was no break in the chain of ownership by NPIP participants) or from a flock in good standing on the PA Pullorum Equivalent Program. The birds or hatching eggs must be accompanied by the most recent test report (copy acceptable). Test results must be negative. If the rapid whole-blood plate agglutination test was done, the most recent NPIP 9-2 form or state equivalent form must accompany the birds or hatching eggs (copy acceptable). Test results must be negative. If birds are less than one year of age and originate from an NPIP Clean hatchery, they do not have to be tested for pullorum-typhoid if they are accompanied by an NPIP 9-3 form from that hatchery and any additions to the flock were also from NPIP Clean sources. The NPIP number must be noted on the report for NPIP Pullorum-typhoid Clean flocks;
- OR**
- All individual birds (pigeons/doves and waterfowl excluded) for exhibition (maximum of 300) must have had a pullorum-typhoid

test within the 90 days prior to the opening date of the exhibition. The birds must be accompanied by the most recent test report, or state equivalent form for the rapid test (copies acceptable). Test results must be negative. The following age restrictions apply:

- All birds not meeting these age restrictions at the time of sampling are exempt from pullorum-typhoid testing requirements.

Section 15: Pennsylvania Rabbits:

Requirements:

1. The Department of Agriculture has no specific requirements for Pennsylvania rabbits at fairs. However, fair management has the authority to impose requirements designed to prevent the spread of contagious diseases.

1. Individual official animal identification is required for all sheep. Official ID includes:
 - A USDA ear tag with a US shield; or
 - A legible tattoo with herd and individual identification recognized in an approved USDA Scrapie database a.k.a. scrapie tattoo (flock ID in the right ear--state postal code and letters/numbers-- and individual animal ID in the left ear); or
 - A breed registration tattoo if the animals are accompanied by a registration certificate (copy acceptable) and the tattoo is legible.
2. A Certificate of Veterinary Inspection (CVI) issued within 30 days prior to Fair.
3. All animals must be free of infectious and contagious diseases and a statement of this should be written on the CVI.
4. A current rabies vaccination administered by a licensed veterinarian for animals 3 months of age and older (observe appropriate slaughter withdraw time).

Section 19: Pennsylvania Swine:

Requirements:

Beginning January 1, 2020, no swine species shall be exhibited in Pennsylvania unless each animal:

1. Is accompanied by a certificate of veterinary inspection (CVI) issued within 14 days of the fair;
2. Is permanently identified by an official 840 series radio frequency identification (RFID) ear tag and the ear tag number is recorded on the CVI;
3. Has been visually inspected and found to be free of signs of contagious disease immediately prior to unloading at the exhibition by an accredited veterinarian or swine health monitor appointed by the fair board or livestock show committee.

GUIDELINES FOR CARE OF ANIMALS

1. It is the responsibility of each exhibitor to care for animals in a manner that is responsible and ethical. Following are some guidelines for the treatment of animals exhibited at the show.
 - a. **Restraining Animals**
 - i. Animals should be tied or penned in a manner that will not hurt the animal or restrict its breathing in any way.
 - ii. Animals should be tied so that all four feet are firmly on the ground and they have enough room to stand comfortable and lie down.

iii. Animals should be tied so that they are not able to injure animals tied near them.

iv. Animals unaccustomed to each other should not be penned together.

- b. **Handling** - Any type of rough handling which could harm the animal is prohibited. The use of whips, canes, and show sticks should be restricted to showing only and then be used only to guide the animals, not punish them. Remember, animals will respond quicker and better to quiet, gentle handling, than loud, rough handling.
- c. **Bedding** - All animals should have bedding that is dry and clean. Pens should be cleaned regularly to keep the animals clean and comfortable. If non-traditional bedding such as carpeting is used, it should be regularly cleaned (at least twice daily) to keep the pen free from manure.
- d. **Feeding & Water** - Animals should be well fed and have access to clean water regularly. Realizing that many market animals must have restricted amounts of feed to maintain the proper weight, animals must be fed adequate amounts of feed to meet the animal's basic requirements. Animals not allowed reasonable access to feed and water will be disqualified from the show.
- e. **Transportation** - Animals should be transported in a way that is both safe and considerate of the animal's well-being.
- f. **Blanket/Sweat Collars** - Any type of material such as blankets or sweat collars should be large enough to permit normal body functions such as breathing, eating, drinking or lying down.
- g. **Health** - It is the responsibility of the exhibitor to provide proper health care for their animals through routine inspection and consultation with health care professionals. The improper or illegal use of drugs or antibiotics is prohibited. If medication is indicated, be sure to follow the label directions and allow more than the state withdrawal time.

ADVICE TO EXHIBITORS

LIVESTOCK EXHIBITORS - EVERYONE MUST READ!
INTERNATIONAL ASSOC. OF FAIRS & EXPOSITIONS)
NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors are required to provide social security number of each entry form.
2. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all

animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.

3. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock officials.
4. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
5. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of tending an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing, diagnostic imaging, ultra sound or radiography. Animals not entered in an event, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with federal, state and provincial statutes, regulations and rules. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden of proof on the owner, exhibitor, fitter, trainer or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed veterinarian.
6. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external application of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
7. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
8. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
9. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
10. This application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
11. The act of entering an animal is the giving of consent by the owner,

exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notice to members.

12. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Additionally, it is an important part of the program of the Purebred Dairy Cattle Association to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the P.D.C.A. believes that it is the best interests of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognized that there are certain practices in the proper care and management of dairy cattle, which are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown. In female classes animals may not be exhibited that are in milk due to an unnaturally induced lactation.
2. Balancing the udder by any means other than by leaving naturally produced milk in any or all quarters.
3. Setting the teats with a mechanical contrivance.
4. Treating or massaging any part of the animal's body, particularly the udder, internally or externally with an irritant, counter-irritant, or other substance to temporarily improve conformation or produce unnatural animation.
5. Minimizing the effect of crampiness by feeding or injecting drugs, depressants or applying packs or using any artificial contrivance or therapeutic treatment excepting normal exercise.
6. Blocking the nerves to the foot to prevent limping by injecting drugs.
7. Striking the animal to cause swelling in a depressed area.
8. Surgery of any kind performed to change the natural contour or appearance of the animal's body, hide or hair. Not included is the removal of warts, teats, and horns, clipping and dressing of hair, and trimming of hooves.
9. Insertion of foreign material under the skin.
10. Changing the color of hair at any point, spot or area on the animal's body.
11. The use of alcoholic beverages in the feed or administered as a drench.
12. Administration of a drug of any kind or description either internally or externally prior to enter the show ring, except for treating a recognized disease or injury and for tranquilizing females in heat. For the purpose of this Code, the term "drug" shall mean any substance, the

sale, possession or use of which is controlled by license under federal, state or local laws or regulations; and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory or central nervous system of a cow.

13. Criticizing or interfering with the judge, show management, or other exhibitors while in the show ring or other conduct detrimental to the breed or show.

In keeping with the basic philosophy of the Purebred Dairy Cattle Association, ethics are an individual responsibility of the owner of each animal shown. Violations of this Code are subject to the disciplinary provisions of the appropriate dairy breed association and/or show management.

The Supreme Showmanship competition will include the follow species: Dairy, Market Goat, Market Lamb, Market Steer, and Market Swine.

Each specie will be represented by (1) youth (4-H/VOC) overall Grand Champion Showman from the above named species determined through the 4-H shows throughout the week.

Each showman will show all of the above named species, not owned by the showman or a family/herd member. If a competitor decides to not show a specie based on their comfort level, they will neither add or subtract points toward the overall Supreme Showman award.

If the same individual is awarded the title of overall Grand Champion Showman for multiple livestock species, the member will be in the Supreme Showmanship Contest by show order of the first livestock show in which they received the overall Grand Champion Showman prize. NATIONAL CODE OF SHOW RING ETHICS

Developed by International Association of Fairs and Expositions (IAFE)

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial & national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the

laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed vet.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the "IAFE National Code of Show Ring Ethics" and understands the consequences of and penalties provided for actions prohibited by the code.  SHOW: SUNDAY, July 17, 2022 • 10AM • Entries close June 20, 2022**

- A meat pen consists of three (3) rabbits of the same breed and variety (*same color and all broken or all solid*) as **recognized and accepted** in the current edition of the ARBA Standards of Perfection. They should be uniform in weight, show the best meat characteristics and have no disqualifications as listed in the ARBA Standards of Perfection. They may be up to ten (10) weeks old (70 day maximum) and must weigh a minimum of three and a half (3.5) lbs. and maximum of five and a half (5.5) lbs. individually. Any meat pen containing rabbits under 3.5 lbs./over 5.5 lbs., or has lost one of the rabbits will not be eligible for the show and livestock sale. A fryer is a single rabbit, up to 10 weeks old and weigh between 3-1/2 to 5-1/2 lbs. They will be chosen from the 10 rabbits that are tattooed. Single fryers must be entered in addition to meat pens.
- Each animal must be identified with a permanent and legible tattoo. Rabbits being grown for competition must be tattooed at approximately

- five (5) weeks of age by the rabbit species chairperson at a common location– tentative date & location is June 20, 2022 at the Lycoming County fairgrounds, time to be determined. Tattoo numbers will be listed on the compliance form and will be signed by the rabbit species chairperson after the rabbits have been tattooed. This compliance form must be brought with the rabbits to the fair and be presented at check-in.
- In preparation for the show, each exhibitor may have up to 10 rabbits tattooed and will be allowed to show and sell two (2) meat pens and two (2) fryers. Exhibitors may not “share” their 10 meat pen rabbits with another exhibitor.
 - Youth exhibitors must own the doe(s) and kits must be kindled in the owner’s rabbitry no more than ten (10) weeks before show date - May 8, 2022 or later.
 - Owner/Exhibitor must notify their county agent or 4-H club leader of their intent to enter a meat pen and fryers before the doe is bred (“designation”).
 - Owner/Exhibitor must notify the county agent or 4-H club leader within three (3) days of the doe’s kindling.
 - Rabbit meat pens will be received Sunday morning July 17, 2022 by 8AM. If so desired, youth may still check their youth meat pens in on Friday evening with open rabbit check in, but they assume the risk of illness/death. Weigh-in will occur Sunday morning prior to judging(not necessarily at check-in) and exhibitors whose pens do not meet weight requirements (see item #1) have the option of taking them home. These weights will be the official weights for the youth show on Sunday morning. The exhibitor has the option of entering their meat pens in the open meat pen classes (judged Saturday), and the open judge may weigh them – but those weights WILL NOT be taken into consideration for the youth show. For those exhibitors who choose to coop their meat pens for the entire week, they will be responsible for feeding and cleaning their meat pens – for those that only enter youth meat pens in the fair, they will receive a pass to enable them to care for their meat pens. Exhibitors only showing men pen rabbits/no other species, will receive a fair pass at the discretion of the fair.
 - A Vet-Client Relationship (VCR) form must accompany rabbits. All paperwork (VCR, buyer intent, market animal designation, parental consent & compliance form) is to be turned in to chairperson at check-in Sunday morning, July 17, 2022.
 - Exhibitors must be present on show day to show their meat pens and fryers for judging or the pen(s) will be disqualified. In the case where the exhibitor is physically unable to attend the show due to ill health or family tragedy, another youth must show the meat pen and fryers.
 - All meat pens and fryers will be sold unless the owner/exhibitor notifies the species chairperson otherwise and turns in the “Intent Not to Sell” slip by the end of the show. A \$5.00 fee (per pen) will be charged if an exhibitor decides NOT to sell an eligible meat pen. **DEPARTMENT 13
VEGETABLES**

1. In selecting vegetables for exhibition, choose such specimens that would bring the highest market price. Do not select the largest; select medium size specimens. If at all possible, do not mix varieties.
2. The following factors are generally used by an expert vegetable judge.
 - A. Trueness to variety type. If at all possible, pick the specimens from one variety.
 - B. Uniformity in shape, size and color.
 - C. Be sure to pick out a perfect specimen, then select the others as similar to it as possible. Never mix specimens of different maturity.
 - D. Protect from dirt, disease, infection, and mechanical damage. Select specimens that are perfect and show no blemishes of any kind.
 - E. Condition and maturity. Be sure that exhibits are of high quality.
 - F. Potatoes should not be washed. Remove soil using a soft cloth or brush.
 - G. Tomatoes should have stems removed. Carrots, beets, etc. should have top (leaves) removed leaving about two inches of stems.
3. Read premium material, carefully following all rules and regulations. If an entry calls for five specimens, be sure to exhibit that number; do not enter four or six. In any instance, your exhibits will be disqualified if the correct number of specimens is not entered.

HOME CANNING PRINCIPLES

In the air and all around us are invisible microorganisms such as mold, yeasts, and bacteria. Many are beneficial while others can be harmful under certain conditions. These "spoilers" live and multiply on the surface of fruits, vegetables, meats and all other types of food. They are the major causes of food spoilage and loss of quality.

Canning interrupts the normal spoilage and decay cycle of food by heating the food contained in a home canning jar that has been closed with a two-piece vacuum sealing cap. When heat is applied according to recommended times and pressure, microorganisms are destroyed and air is driven from a jar. Upon cooling, the lid seals onto the jar.

Currently, we recommended canning by two proven methods: boiling water canning and steam pressure canning. Home canners will make their choice of which of these methods to choose based on the pH

of the food being canned. It is important that processing methods (including time to process) be current and be based on research. Some processing methods that have been handed down through the generations in families probably do not reflect current thought and need to be reexamined in light of recent studies.

SECTION 2 - CANNED OR DRIED PRODUCTS

1. Use only standard mason-type clear pint or quart glass jars for preserving and exhibiting fruits, vegetables and meats.
2. Green or other colored jars are unacceptable.
3. Metal screw bands may be loosely applied.
4. All food not in standard jars or not sealed with self-sealing lids will be disqualified by the judge.
5. Entries must have been processed since the last fair.
6. To maintain a quality fair, participants will be asked to identify the method of preservation used as well as the number of minutes and pounds of pressure for pressure canning. This information is to be provided at time of entry.
7. Judges are privileged to open and sample canned goods and jellies if such treatment appears necessary in making a decision. Canned fruits and vegetables to be judged on quality, general appearance and container. **ALL CANNED FOOD PRODUCTS MUST BE EXHIBITED IN STANDARD CANNING JARS, AND SEALED WITH VACUUM OR SELF-SEALING LIDS, WITH THE SCREW OR RING BANDS REMOVED.**
